QC Buddy

BY MISSION

Developed by

MISSION
DESIGN & AUTOMATION

QC Buddy is the first of many applications within The Buddy System. What are you looking for in a friend? Avoid a missed connection - email buddysystem@mission-llc.com to discuss your unique Buddy System needs.

You'll become FAST FRIENDS!

The **point-and-click interface** allows for quick and easy configuration with little robotics experience!

Count on your Buddy to...

- ...combat the labor shortage
- ...reduce human error and inaccurate inspection results
- ...streamline manufacturing processes with reliable labor while boosting productivity

Available by the hour/day/month!

Budget-friendly robot leasing, a fraction of the cost of implementing a fully automated cell while providing integral production support.
